**NoReply** <noreply8@cocubes.com>

to me

Dear Candidate,

Microsoft would be visiting your campus on 19<sup>th</sup> Sep. As a part of the selection process, we will be testing your problem solving & coding capabilities. Students will be required to undertake 2 assessments. Those who get shortlisted in objective assessment will be asked to undertake the Coding assessment. The username and password that you would require to undertake these online assessments are as follows:

**Username: candidate\_7683****Password: passwo1153****What you need to know about online assessments:**

Students will be required to undertake 2 assessments (Objective &amp; Programming)

- **Objective Assessments:** This test will have 15 questions which students will receive a positive mark for every correct option marked with no negative marking involved. Candidates' scores will reflect against every question.

- **Programming Assessments:** This test will have 2 questions on coding; candidates will be provided with a compiler interface where a candidate can compile and test. Students will be required to provide boundary test cases. Candidates will get 60 minutes to complete this assessment.

Please click on this link to understand about coding assessment in detail: <http://www.cocubes.com>

**You are requested to carry along a printout of this mail when you come down**  
Kind Regards
